idX Celebrates 20th Anniversary

The idX St. Louis team

ST. LOUIS, Mo. (September 4, 2019)--idX Corporation, the global solution provider for consumer environment design, manufacturing, rollout and installation, is celebrating 20 years in business.

idX was incorporated on August 18, 1999, created through the merger of several long-standing retail fixture companies.

In its first days, idX was strictly a fixture manufacturer. Over the years, the company has evolved by adding a dynamic mix of new services through strategic planning and acquisitions. This has allowed idX to expand its offering to its core customer base, while also attracting new clients around the globe.

Part of idX's evolution involves the industries served by the company. Building from its historic base in fashion retail, idX has expanded to support all types of retail segments, including fashion, specialty, department store, beauty, telecom, consumer electronics, sporting goods, and value. Today, the company also has customers in grocery, pharmacy, convenience, QSR, consumer product brands, automotive, financial services, hospitality, shared work spaces, and architectural millwork (sports complexes, hospitals, etc.).

Still headquartered in St. Louis, Missouri, idX today has more than 20 offices worldwide and is one of the largest retail environment manufacturers in the industry.

In marking this important anniversary, idX is recognizing 16 associates who have been with the company since its formation. Most of these individuals have actually been with the company more than 20 years, having come to idX as part of its predecessor organizations. Notable among them is Henry Mendoza, who joined our Toronto division (formerly Universal Showcase) in 1989, and this month celebrates his 30th year at the company.
